iVideoCocktails

★★★★☆
Rated

Like mixing up a delicious drink every now and then? Or maybe you need some inspiration on what drinks to serve at your next party? Check out the iVideoCocktails application for your iPhone or iPod Touch containing recipes and exciting videos to help you recreate the perfect cocktail at home with skills of a trained barman. Ingredients for each cocktail can be modified automatically to fit the number of people you are making for.

Recipes come from renowned experts and contain tips and tricks and even the history of each cocktail is included. The app lets you view only the cocktails that match what you have available at your bar. You can also filter non-alcoholic cocktails which also double up as desserts. If you feel adventurous, there is also a random button. Watching the videos requires a WiFi or 3G connection.

This 3rd Party App is available at the Apple iTunes AppStore. Browse the full list of **all AppStore apps** filed under the AppStore category.
