

## OUR BATTERY DISPENSERS

# TOTEM Distributor

### PRESENTATION

The "TOTEM" self-service external battery dispenser allows students to retrieve their external battery with a simple click and easily recharge their device anytime.

The "TOTEM" dispenser integrates 2 stations, each containing 9 PC batteries or 12 tablet batteries. This totem is a true communication tool for the school or institution as it features a large connected touchscreen display.

Dimensions	Bollard: 26 x 45 x 180 cm Screen: 34 x 60 cm Base: 44 x 50 cm
Number of batteries included	From 18 to 24 batteries
Connectors	220Volts mains socket
Connectivity	WiFi
Reference	<b>YACCPWBK6</b>

# Technical characteristics of external batteries for tablets and smartphones

External battery capacities	5 000 mAh
Charge level indication	LED
Connectors	USB Type-C cables included / Micro-USB / Lightning
Outputs	5 V / 2.1 A (max)
Battery Type	Lithium Polymer
Weight	146 g
Dimensions	12.9 x 7.6 x 1.4 cm
Reference	<b>YACCPowBU2</b>

# Technical characteristics of external batteries for PC

External battery capacities	15 000 mAh
Charge level indication	LED
Connectors	USB Type-C cables included
Outputs	5-20 V / 1.5 A
Battery Type	Lithium Polymer
Weight	360 g
Dimensions	17 x 7.6 x 2.1 cm
Reference	<b>YACCPowBU3</b>
